Fisker Automotive has made every effort to ensure the information presented here is current and will provide regular updates to a forthcoming incentives section of our website. Government incentives are complex and subject to frequent changes. The information provided here is for educational purposes only and does not constitute tax advice. All persons considering use of government incentives should consult with their own tax professional to determine eligibility, benefit availability, and how best to utilize incentives for your individual circumstances.

If you would like to see more incentives in your area to support the adoption and use of electric vehicles with extended range, Fisker Automotive encourages you to contact your local and state representatives.
